Job Application for Secondary Teacher

Greetings,

About Me

I am interested in applying for a secondary-level teaching position at your school. As a 2018 graduate of Walla Walla University, I have student teaching experience in the fifth through twelfth grade levels, in both suburban and urban school districts within the Walla Walla valley. I believe my teaching experience and passion for technology make me an ideal candidate for a teaching position at your school.

I have experience teaching elementary-level and secondary-level students. In my current position I teach Algebra, Prealgebra, Integrated Science, 7th and 8th grade Science, Physical Education, and Essential Living Skills to students in grades 7 through 9. I welcome the opportunity to meet with you to discuss how my collaborative nature, innovative classroom skills, and technology experience would benefit your mathematics and science program.

Why Me?

I have knowledge in various teaching methods so I am able to reach learners of all backgrounds. I enjoy helping adolescents and teenagers gain an understanding and appreciation of mathematical concepts and reach their academic goals. Students find that I am an innovative, passionate teacher who uses a number of teaching methods and styles in order to produce effective results. I am sure that I can bring this same level of professionalism to your school.

Best Wishes,

Caleb M. Bibb
